About Us...

MillerTech Energy Solutions LLC is a family owned and operated business that was established in 2015. We specialize in designing, developing, and sourcing High Quality LED Lighting and Energy Storage products. We realize the growing demand for Efficient, Clean and Green Energy Solutions. Our goal is to provide a wide range of high quality products at the lowest price possible so we can meet these ever growing demands!

Why Choose Millertech?

Innovation

We listen to our customer's suggestions and look for new ideas, innovation always! Our best products have come from ideas shared with us by customers. We have many more new and exciting products that we are continually adding to our Millertech line. Watch for upcoming ads!

Reliability

We always consider the quality of our products is the lifeblood of us. If our company doesn't present quality products to our clients, there will be no market and no future for us. We have a strict quality testing procedure. When sourcing a new product, we always ensure that the factory has the highest quality standards and approvals. If their quality does not meet our standards, we refuse to buy from them.

Invested in our Customers

At MillerTech, we invest major effort and resources in new product development so we can meet our customer's energy goals. We are committed to creating and maintaining long-term relationships with members of our supply chain, distributors and end-users. We're invested - in the success of our customers, our distributors and our future. It's a commitment we make, and try to keep every day!

All products manufactured and distributed by MillerTech Energy Solutions have a warranty ranging from 1 year to 10 years. With MillerTech you can rest assured, that if by chance, you have a warranty claim, it will be solved with an honest, understanding, hometown approach. Unlike a larger corporate company where you might be (just another customer)!

All defective products must be shipped to MillerTech Energy Solutions LLC along with a copy of your purchase receipt. At our discretion, we may repair, replace or give credit for items returned under warranty. Tampering or abuse of product will void warranty coverage!

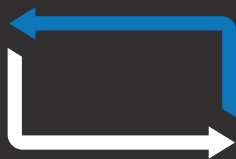

Built-In Bluetooth Technology

Bluetooth activated to connect directly to our MillerTech App. The MillerTech App gives you in depth, real-time data, taking the guessing game completely away. Power with Confidence!

Easy, Drop-In Installation

Industry-standard sizes provide for installation in minutes. No retrofitting battery trays, no wondering if it will fit in your application. Just drop in, easy-connect and go!

Custom Moulded Reclosable Case

Custom moulded, heavy duty, reclosable battery case provides for fast interior access. Integrated hold-down strap grooves in side corners keep straps securely in place.

Breathable Marine Approved

Each battery is sealed with a thick rubber gasket along the lid connection point. A completely sealed battery case will cause condensation, so we build them with a marine grade Stainless Steel breather vent. Our vent sits on the top of the case unlike some others where the vent sits down inside catching rain and dirt.

Perfect Protection

Over charge, over discharge, internal over temperature, voltage, short circuit and prismatic cell protection. Your safety is always our priority. No poisonous lead, no acid, and no creating gas during charge like traditional lead-acid batteries.

Robust Design for Longer Life

Robust yet lightweight, Millertech Sport Series Lithium Batteries can last up to 10X longer than AGM or lead-acid batteries. Never be stranded with a dead battery again!

INDUSTRY LEADING

WARRANTY & RETURN POLICY

Since 2015 MillerTech has been selling thousands of batteries each year within our local Amish communities. We have developed a reputation for having the best warranty in the current Lithium Battery Market. (For this we give all Glory to God). We believe this reputation was not developed because we offered a longer or flashier warranty than anyone else, what we did was stand true to our statements and use every customer exactly like we would want to be treated in a similar situation! Our goal is to bring these same values and commitments and offer them to millions of passionate people that care about a better future in the Great USA and around the world. A warranty can be 1 year or 20 years, this warranty is still only as good as the company standing behind it. We and our people are here, ready to step up and take responsibility where it is due.

SPORT SERIES (10) YEAR WARRANTY POLICY

MillerTech Energy Solutions LLC (The Manufacturer) warrants each MillerTech Sport Series branded battery bought from MillerTech or one of its authorized resellers to be free of defects in material and workmanship for a period of 10 years from the date of the original purchase. The date of purchase will be determined by the original sales receipt. If this receipt is not available the warranty will be issued using the manufacturing date printed directly on the battery. Within the first 6 years of the warranty period, subject to the exclusions listed below, the manufacturer (MillerTech) will repair (if serviceable) or replace (with a new or refurbished product with equal to or greater value) if the components in question are determined to be defective in material or workmanship. After 6 years up to 10 years if the battery is deemed repairable, the manufacturer will repair and return the battery at no cost to the customer. If the battery is deemed to be unrepairable, the manufacturer will offer a similar battery to the customer at a discount of 50% off of the Retail Price at the time of the offer. The offer will be valid for a period of 30 days after the date of notification.

SHIPPING CHARGES

Within the first 5 years of the warranty period if it is determined by our warranty department that your battery needs further testing, MillerTech will pay all shipping charges to and from our testing facility. Within the last 5 years of this warranty period, all incoming shipping charges are the full responsibility of the customer. All outgoing shipping fees will be paid by MillerTech.

WARRANTY REGISTRATION

Who has time to register a warranty? With MillerTech this is not required. We want to make things simple and easy. Just save your point of purchase receipt, should you have issues and need to warranty your battery. If you happen to lose the receipt, don't worry, each battery has a serial number that we can use.

LIABILITY

The liability of MillerTech Energy Solutions LLC and this warranty policy shall be limited, at the sole discretion of the manufacturer to either repair or replace defective items. Any repaired or replaced items shall be of equal or greater value than the warranted product in terms of cycle life trajectory for the corresponding age of the product. If a defective product is replaced, the original unit shall become the property of MillerTech Energy Solutions LLC.

NOT COVERED BY THIS WARRANTY:

The manufacturer is not obligated to warrant the battery in question if defects are related to damages caused by abuse, neglect, or the following:

- Damage from shipping, loose terminals bolts, or corroded hardware.
- Manufacturer codes tampering or removal
- Failure to properly install the battery, in addition to keeping the battery properly charged and maintained.
- Breakage from collision, fire, or freezing which includes damage from extreme heat or cold, improper storage, water damage, or tampering.
- A defective (SOC) meter will not affect the performance of the lithium battery, therefore the (SOC) meter is not covered by MillerTech warranty.
- The warranty does not cover a battery reaching its normal end of life which may occur prior to the warranty. As stated above. Depending on the application a battery can reach its normal life before the end of the applicable warranty period. A battery can deliver only a fixed number of usable amp-hours over its lifetime and is considered to have reached its normal end of life if the application used up all of those amp-hours, regardless of the time the battery has been in service. Therefore the manufacturer reserves the right to deny a warranty claim if they determine the battery to be at its normal end of life, even if the claim is lodged within the applicable warranty period.

FOR WARRANTY SERVICE CALL: 855-MAX-LITH EMAIL: warranty@millertechenergy.com

If it is determined that your battery requires further inspection, arrangements will be made to ship it to the MillerTech manufacturing site. Proof of purchase is required and should include the original invoice and serial number.

The Sport Series MillerTech Battery line was developed solely due to the overwhelming amount of requests we received for this type of product. With our commitment of listening to our customers, we felt putting in the effort and resources to create this series is a must and a true testament of that commitment!

This Series is geared towards Avid Pro Users that demand only the best components and cases. This line of batteries come standard with a bold industry leading 10-year warranty. Some models have even been tested to meet and exceed all UL1973 protocols, proving that they are built to be safe and reliable, even in the most extreme applications!

What really sets this group apart is the built-in bluetooth technology. The bluetooth monitoring system gives you important real-time data directly from your phone or tablet using the free MillerTech app. State of charge, voltage, time of use, cycles and temp readings are only a few of the features this technology has to offer.

Millertech Dual Purpose Batteries LiFeP04 are quickly becoming a popular item that many enthusiasts demand. Our team of Engineers and Technicians are a very aggressive group and were not willing to take a backseat on this trend. This battery has enough cranking amps to start even the largest engines in the industry, plus they have enough reserve capacity to power multiple power hungry graphs for 8 plus hours. These Dual Purpose models will change the way anglers think about there power needs forever.

Battery Accessories

Battery Tray Group Size 24

Item# G24

Retail Price = \$49.99

Inside Dimensions: 10.25" x 6.75"

- Heavy duty construction
- 1/8" Aluminum is more durable and lighter than Steel
- Excellent shock absorption with thick foam padding

Battery Tray Group Size 31

Item# G31

Retail Price = \$59.99

Inside Dimensions: 13.25" x 6.75"

Power Distribution Blocks

Item# 124-BLK

Retail Price = \$39.99 per set

This set of high quality distribution blocks are custom machined to work well with most MillerTech Batteries. At last no more stacking ring terminals to create an ugly cobweb of wires. Get organized today!

Marine Parallel Battery Cables

Item#

Retail Price = \$14.99

This set of (2) 10 inch, 4 awg, silicone, Parallel Battery Cables will make your next battery installation a breeze. They are custom made with 5/16 inch hydraulic crimped lugs. We use a silicone coated tinned copper wire for extreme flexibility and no corrosion even in the harshest environments!

On-Board Lithium Battery Chargers

IP65 Waterproof-rated Lithium battery chargers built specifically to permanently mount in your boat.

12V20A Charger

Item# 1220M

Retail Price = \$139.00

Input Voltage	110V AC
Output Voltage	14.5V
Output Current	20A
Waterproof	IP65
Dimensions	8" x 5.5" x 5"

36V15A Charger

Item# 3615M

Retail Price = \$179.00

Input Voltage	110V AC
Output Voltage	43.5V

12V5AH Charger

Item# 125C Retail Price = \$49.99

Input Voltage	110V AC
Output Voltage	14.6V
Output Current	5A
2 Stage Charging	Yes

12V40A Charger

Item# 1240C Retail Price = \$199.00

Input Voltage	110V AC
Output Voltage	14.6V
Output Current	40A
2 Stage Charging	Yes
Fuse	Automatic

12V10AH Charger

Item# 1210C Retail Price = \$69.99

Input Voltage	110V AC
Output Voltage	14.6V
Output Current	10A
2 Stage Charging	Yes

24V

Electric Lithium Battery Chargers

24V10A Charger

Item# 2410C Retail Price = \$99.00

Input Voltage	110V AC
Output Voltage	29.2V
Output Current	10A
2 Stage Charging	Yes
Fuse	Automatic

24V30A Charger

Item# 2430C Retail Price = \$199.00

Input Voltage	110V AC
Output Voltage	29.2V
Output Current	30A
2 Stage Charging	Yes
Fuse	Automatic

48V

Electric Lithium Battery Chargers

48V18A Charger

Item# 4818C Retail Price = \$199.00

Input Voltage	110V AC
Output Voltage	58.4V
Output Current	18A
2 Stage Charging	Yes
Fuse	Automatic

The 20A and the 40A work best using a generator. Their fast charging capability will save you time and money

DC to DC

Lithium Battery Chargers

12V3A DC-DC Charger

Item# 123DC-8D

Retail Price = \$40.00

- For use with 8D Replacement Batteries
- 5.5 x 2.5mm Output Plug

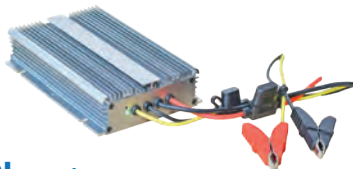

12V10A DC-DC Charger

Item# 1210DC-DC Retail Price = \$78.00

Input Voltage	10-30V DC
Output Voltage	14.6V DC
Output Current	10A

2 Stage Charging	Yes
Fuse	Yes

12V20A DC-DC Charger

Item# 1220DC-DC Retail Price = \$129.00

Input Voltage	11.5-30V DC
Output Voltage	14.5V DC
Output Current	20A

2 Stage Charging	Yes
Fuse	Yes

Commercial 4-Bank Charger

Item# DC4-8D

Retail Price = \$240.00

- Built-In Mounting Flanges
- Built-In LED Indicator Lights
- Includes a 5 ft. Input Power Cable with 50A Anderson Connector and Ring Terminals

Input Voltage	11-30V DC
Output Voltage	14.5V 3A x 4
