PRODUCT CATALOG

TABLE OF CONTENTS

Millertech Batteries 6-36
- Sport Series Lithium 8-27
- Electronics Batteries (14.8V / 16V) 14-15
- Heated Sports Series Batteries 13,17,24-27
- Golf Cart Batteries 18-22
- Marine Cranking / Dual Purpose Batteries 24-27
- Deep Cycle Batteries (no bluetooth) 28-29
- Sprinter Brand Batteries 30-33
- AGM Batteries 34-35
- Battery Accessories 36, 88-89
- Trail Camera Auxiliary Batteries 44-47

Battery Chargers 37-43, 82
HeadLamps 48-52, 57
LED Lighting 48-83
- 100W LED Work Lights 67
- 4-Bay Battery Chargers 56
- AC Bulbs - Dustproof, LED 64
- Ceiling Lights - LED AC/DC (Recessed & Select) 64-65
- Chicken Coop Light with Timer - Cordless 73
- Closet / Cabinet Lights - LED 111
- Economy Lights 83
- Flashlights 54-55
- Headlamps 48-52,57
- High Bays Lights - Commercial LED (Linear & UFO) 68-69
- High Power LED Floodlights (Select) 65
- Home Décor Lighting 74-80
- Home Décor Lighting Accessories 77
- Lanterns - Rechargeable LED 81-83
- Maxxi-Star Bulbs 62-63
- Modern Motion Sensor Wall Lamp Fixture 80
- Motion Sensors - Plug & Play 66, 69
- Off-Road LED Bar Lights 58
- Portable LED Floodlights 71
- Rechargeable Batteries for Headlamps & Flashlights 55
- Rechargeable Motion Sensor Light 69
- Scooter Light Kit - LED 59
- Select Bulbs (DC, V1 & V2) - LED 61-63
- Select Ceiling Lights - LED 66
- Select Pyramid Lights - LED 63
- Solar Outdoor Motion Light - LED 70
- Strobe Lights - Magnetic, LED 53
- Tool Battery Night Lights 71, 86-87
- Tube Lights (Selectable) - LED 72
- Vintage LED Bulbs 60
- Wall-Lites - LED, Cordless 74
- Worklights - LED, Cordless 69

200W Compact Inverters 93

Dear Valued Friends and Customers,

As we open the pages of this year's catalog, our hearts are full of gratitude for each and every one of you. The past year has been filled with incredible opportunities and shared successes, all made possible by your unwavering support and loyalty.

At Millertech, we're more than just a business; we're a family. And we feel incredibly blessed to have such a strong community of customers and dealers who are a part of that family. These relationships are the foundation of Millertech, and it's your trust and partnership that have helped us grow into what we are today.

Looking ahead, while we're excited to share our latest products with you, our greatest desire is to deepen our connections. We want to continue being your friends, building even stronger working relationships, and being a trusted part of your journey.

We believe that the most remarkable achievements in history have come from communities where people choose to work together. Thank you for being that community for us.

May God bless you all.

Warmly,
The Millertech Team

About Us...

Established in 2015, Millertech Energy Solutions is a family-owned and operated business that specializes in designing, developing, and sourcing high-quality LED lighting and energy storage products. Realizing the growing demand for efficient, clean and green energy solutions, our goal is to provide a wide range of high-quality products at the lowest price possible so we can meet these ever-growing demands.

Our Vision

Our vision is to cultivate a Christian workplace that upholds biblical principles in all aspects of its operations, fostering a positive and transformative impact on everyone we engage with.

Our Mission

Our mission—using our God-given creativity to empower people with practical energy solutions rooted in our commitment to serve others

Our Core Values

Stewardship

- We recognize everything we have – our resources, time, people, and finances – as gifts God has entrusted to us.
- We develop practical solutions that conserve everyone's time and energy.
- We nurture our relationships to increase our fruitfulness.
- We use the fruits of our labor to build the kingdom of God.

Community

- We work together through effective communication to accomplish our common goals.
- We support each other by celebrating our wins and helping each other fail forward.
- We primarily employ people from our community who share our work ethics, and values.
- We uphold ethical standards with all our vendors, and customers, ensuring transparency, and trust.

Commitment

- We serve our customer base by taking time to listen to them and ensure their needs are met.
- We delight our customers by under promising and over delivering every time.
- We develop and maintain thriving relationships with our team members, vendors and customers.
- We strive for loyalty with our customers by upholding our warranty policies and keeping our promises.

Excellence

- We continuously improve our products and services.
- We display professionalism in our marketing and sales.
- We offer knowledgeable customer service via personal interaction.
- We develop our team members and provide them with resources they need for success.

Creativity

- We encourage innovative thinking that empowers our people to solve problems.
- We make calculated decisions and view failure as an opportunity for growth and development.
- We collaborate as a team to experiment, create and produce quality products.
- We inspire vision for a better future.

All products manufactured and distributed by Millertech Energy Solutions have a warranty ranging from one year to 10 years. With Millertech you can rest assured, that if by chance, you have a warranty claim, it will be solved with an honest, understanding, hometown approach. Unlike a larger corporate company where you might be (just another customer)!

All defective products must be shipped to Millertech Energy Solutions LLC along with a copy of your purchase receipt. At our discretion, we may repair, replace or give credit for items returned under warranty. Tampering or abuse of product will void warranty coverage!

Millertech®

OUR COMMITMENT

DIRECT HUMAN ACCESS

REAL EXPERTS IN 10 SECONDS OR LESS.

Millertech customers skip the phone maze and automated systems, speaking directly with a real person who has hands-on product knowledge, providing practical, accurate help in 10 seconds or less.

WARRANTY CONVICTION

WE REMOVE THE RISK.

Millertech stands behind its products with no-questions-asked warranties and a commitment beyond the fine print, removing customer uncertainty by solving problems with integrity, doing the right thing, and making sure every customer is taken care of no matter the cost.

PRODUCT MASTERY

NOT A COMMODITY RESELLER.

Millertech is not simply reselling products from a catalog; our team understands the engineering, performance, and internal design of the technology allowing us to diagnose issues, properly support customers, and ensure products perform as intended in real-world applications.

FAQs

Can I charge my Millertech battery with an alternator?

Yes, you can, but only if your alternator's max voltage output is 14.6V or below. We have found there is a big difference in voltage output from one alternator to the next. When using an alternator with high amperage output, always make sure to use ring terminal connections in order to get good connections with no heat build up. If you want to use an alternator, but don't know if it is compatible with lithium, please call us and we will try to help you with your decision!

Are Millertech lithium batteries safe?

Yes. Every Millertech battery is built using the highest quality materials available. The lithium cells used in our batteries are UL, CE, Rohs, and RU approved. Steel rod, puncture test, dead short test, high voltage overcharge test, 30 ft. drop test, and crush test are amongst the tests performed. In the fire test, the cells kept their shape and did not explode even though the plastic casing burned completely. Lithium batteries are capable of high electrical currents - use caution when using a lithium battery. The greatest chance of battery problems is battery overcharging. Although extremely unlikely, our Battery Management System (BMS) overcharge protection could fail, so it is important to use a charger that is compatible with lithium. If you have questions about your battery charger, please call us and we will help you evaluate your situation.

Can Millertech lithium batteries be used to start an engine?

Our Dual Purpose batteries are built to start boat engines as well as provide consistant and long lasting power to keep it running all day. Millertech Deep Cycle lithium batteries are not designed to be used in starting applications. Note: These batteries will not start large (100HP+) diesel engines.

Are Millertech lithium batteries a good choice for solar applications?

Yes. Millertech lithium batteries are a perfect choice for solar, wind, and other renewable energy applications. Our batteries are sealed, making them perfect for installing in confined environments. Large, heavily-used, flooded battery packs need a lot of attention and continuous monitoring to keep water levels and corrosion in check. A Millertech $LiFePO_4$ pack requires zero maintenance or monitoring. Simply install it, set it, and forget it. Millertech solar batteries have 5,000 cycles at 50% DOD, compared to flooded lead-acid which have between 800 - 1,000 cycles. Millertech solar batteries have between 5x - 6x the life of a flooded solar battery and you only need to pay for installing one Millertech pack versus 5 or 6 lead-acid packs.

Millertech solar batteries are 98% efficient,compared to flooded lead-acid, which after 100 cycles is only 60% efficient. If you have questions about using Millertech lithium batteries for your solar application, please contact us for a free quote.

How does Millertech compare with other lithium batteries?

This is a question that we feel can only be truly answered with time. We do not know what type or grade of materials other batteries are made with. We do know that most lithium batteries will perform OK for the first 500 cycles, but in order to perform perfectly for 5,000 cycles (at 50% DOD) and last 10-20 years, only a battery manufactured with the best components can meet that criteria. Millertech's engineers specify every component that goes into every one of our batteries. We use only Grade A cells from the top three manufacturers in China. All Millertech batteries use commercial grade BMS's that are oversized by at least 20A (a 40Ah battery rated for 40A continuous charge and discharge is capable of 60A). All Millertech BMS's are designed with high voltage withstand capability, (100V) — our batteries can be connecting in series up to 48V with no chance of BMS failure. Our BMS's also have a larger balancing current rate than off-the-shelf BMS's, which will keep our batteries running at peak performance for thousands of cycles!

Top Three Reasons Your Millertech Battery Could Fail. (5 Year Data Analysis)

1. Water Damage. The #1 reason batteries are returned for warranty or repair is because of long-term exposure to direct rain or wet conditions. We continuously strive to make our batteries watertight, but creating a 100% waterproof battery would also create internal condensation and could also damage the circuitry. Testing has found that exposing our battery to direct rain for up to 30 minutes had no effect on performance.

2. Abusive Charging. All our batteries have built-in Battery Management Systems. The BMS is designed to keep the battery safe and protect it from extreme situations. Unfortunately, the BMS still has restrictions of what it is capable of. For instance, charging a 45Ah battery with a 100A, 18V alternator will most likely ruin the BMS and you will need to have it replaced. Always make sure your charger is lithium-approved! If you're not sure, give us a call and we will be happy to help!

3. Loose Connections. Lithium batteries can release a lot of energy quickly. Most of the time this is an advantage, but sometimes clamps are used instead of ring terminals. Transferring high currents through a clamp is not safe. The connection point can become very hot and unsafe, which can lead to the plastic casing melting around the terminal and causing the battery terminal/post to become dislodged. This could create a short circuit and will ruin your battery. Always use correct connecting techniques!

POWER
THAT WORKS AS HARD AS YOU DO.

10 YEAR WARRANTY

Millertech Intelligent Lithium-ion batteries can last up to

10X

longer than SLA batteries!

DEEP-CYCLE SOLAR · HIGH CAPACITY · LIGHTWEIGHT · CLEAN GREEN · TRUE DEEP CYCLE · LONG CYCLE LIFE · MAINTENANCE FREE · RUGGED CONSTRUCTION · SEALED SPILL PROOF · NON-HAZARDOUS · CORROSION-FREE

Lithium batteries contain no poisonous lead, no acid, and do not create gases during charge, as traditional lead-acid batteries do. Compared to lead-acid, lithium iron phosphate batteries are also extremely lightweight, have a much lower self-discharge, do not sulfate, and are environmentally friendly.

Millertech “Deep Cycle” batteries feature a Battery Management System (BMS) which monitors the key operational parameters during charge and discharging such as voltages, currents and internal temperatures, making them one of the safest lithium-ion batteries on the market!

All Millertech intelligent lithium-ion batteries have a convenient state of charge meter installed for the user's magnified convenience. Millertech lithium-ion batteries are the first commercially produced lithium batteries that come standard with a convenient state of charge meter. Never be stranded with a dead battery again!

MARINE

What Makes it a Marine Battery?

All Millertech Marine batteries are sealed with a **RUBBER GASKET** to ensure no water gets inside!

Our custom molded, heavy duty, re-closable battery case has a marine-grade, **STAINLESS-STEEL BREATHER VENT** which allows air flow to prevent condensation. Our vent is installed on the top of the case, unlike other brands where the vent is positioned below, catching rain and dirt.

HOLD-DOWN STRAP GROOVES on the case keep straps securely in place, so no need to worry about your batteries staying where they belong.

BUILT-IN BLUETOOTH connects to the Millertech App. For iOS and Android, the app gives you real-time data, including remaining capacity, voltage, current and temp. for up to six batteries all in the same app!

The built-in **BATTERY MANAGEMENT SYSTEM** (BMS) prevents overcharge, over-discharge, internal over-temperature, voltage, short circuit and provides prismatic cell protection, making them one of the safest lithium batteries on the market.

DUAL PURPOSE

What Is Dual Purpose?

The Millertech Dual Purpose battery is your go-to **STARTER BATTERY!** The cranking amps on our Dual Purpose batteries can turn over even the largest marine engines in the industry!

The Dual Purpose battery is also a DEEP CYCLE battery - It's built to deliver steady reliable power for long periods of time

The Dual Purpose battery is meant for anyone who needs a starter battery, but also wants to have amazing lasting power to keep them going all day long..

MARINE ELECTRONICS

What Is An Electronics Battery?

The Millertech Electronics battery is your best solution for making sure you have consistently clearer images, and stronger signals on all your boating electronics for your whole day on the water.
CLEARER. STRONGER. LONGER.

HEATED

Why A Heated Battery?

While most of our Sports Series batteries have a charging temperature range between 32°F - 130°F, our new Heated Series line of batteries have built-in heaters that allow you to **PUSH THE LIMITS OF COLD-WEATHER FISHING DOWN TO 0°F**!

DEEP CYCLE

Built to deliver steady power over long periods. Designed to discharge deeply without damage.

That Means: Longer Runtime, More Usable Energy, And A Significantly Longer Lifespan.

12V 15Ah

SPORT SERIES Bluetooth

Item #1215-BT
Retail: **$125**

10 YEAR WARRANTY

MARINE DEEP CYCLE

Capacity	15Ah
Voltage	12.8V
Weight	3.1 lbs.
Size	6" x 4" x 4"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	No
Max Charge Voltage	14.6V
Low Cut-off Voltage	10V
Max Charge/Discharge Current	15A
Operating Temp	-4°F–140°F
Low Temp Charging Protection	Yes
Connection Capability	4S-4P
Cell Type	Cylindrical
Peak Discharge Current	45A - 5 Sec.
Bluetooth	Yes
Warranty	10 years

12V 22Ah SPORT SERIES Bluetooth

Item #1222-BT
Retail: **$169**

10 YEAR WARRANTY

MARINE DEEP CYCLE

Capacity	22Ah
Voltage	12.8V
Weight	7.8 lbs
Size	7.125" x 3.125" x 6.125"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	No
Max Charge Voltage	14.6V
Low Cut-off Voltage	10V
Max Charge/Discharge Current	22A
Operating Temp	-4°F–140°F
Low Temp Charging Protection	Yes
Connection Capability	4S-4P
Cell Type	Cylindrical
Peak Discharge Current	66A - 5 Sec.
Bluetooth	Yes
Warranty	10 years

12V 40Ah SPORT SERIES Bluetooth

Item #1240-BT
Retail: **$299**

10 YEAR WARRANTY

MARINE DEEP CYCLE

Capacity	40Ah
Voltage	12.8V
Weight	14lbs.
Size	7.75"x5.2"x7.25"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	No
Max Charge Voltage	14.6V
Low Cut-off Voltage	10V
Max Charge/Discharge Current	40A
Operating Temp	-4°F–140°F
Low Temp Charging Protection	Yes
Connection Capability	4S-4P
Peak Discharge Current	120A - 5 Sec.
Cell Type	Prismatic
Group Size	U1
Bluetooth	Yes
Warranty	10 years

12V 55Ah

SPORT SERIES Bluetooth

Item #1255-BT
Retail: **$399**

10 YEAR WARRANTY

MARINE DEEP CYCLE

Capacity	55Ah
Voltage	12.8V
Weight	17.1 lbs.
Size	9" x 5.5" x 8.5"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	No
Terminals	M8
Max Charge Voltage	14.6V
Low Cut-off Voltage	10V
Max Charge/ Discharge Current	55A
Peak Discharge Current	5S - 180A
Operating Temp	-4°F–140°F
Cell Type	Prismatic
Bluetooth	Yes
Warranty	10 years

12V 100Ah

36V 60Ah

SPORT SERIES Bluetooth

MARINE DEEP CYCLE

Item #3660-BTH

Retail: **$1,229**

10 YEAR WARRANTY

Capacity	60Ah
Voltage	38.4V
Weight	41.23 lbs.
Size	12.92" x 6.78" x 8.75"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	None
Terminals	M8
Max Charge Voltage	43.2V
Low Cut-off Voltage	30V
Max Charge/ Discharge Current	60A
Peak Discharge Current	180A - 5 sec
Operating Temp	-4°F–140°F
Cell Type	Prismatic
Group Size	31
Bluetooth	Yes
Warranty	10 yr
Heated	Yes

HEATED Heater activates when charger is connected and the temp is below 32°F.

36V 60Ah

SPORT SERIES Bluetooth

MARINE DEEP CYCLE

Item #3660-BT

Retail: **$1,199**

10 YEAR WARRANTY

Capacity	60Ah
Voltage	38.4V
Weight	41.23 lbs.
Size	12.92" x 6.78" x 8.75"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	None
Terminals	M8
Max Charge Voltage	43.2V
Low Cut-off Voltage	30V
Max Charge/ Discharge Current	60A
Peak Discharge Current	180A - 5 sec
Operating Temp	-4°F–140°F
Cell Type	Prismatic
Group Size	31
Bluetooth	Yes
Warranty	10 yr

NEW!

36V 105Ah SPORT SERIES Bluetooth

Item #36105-BT
Retail: **$1,749**

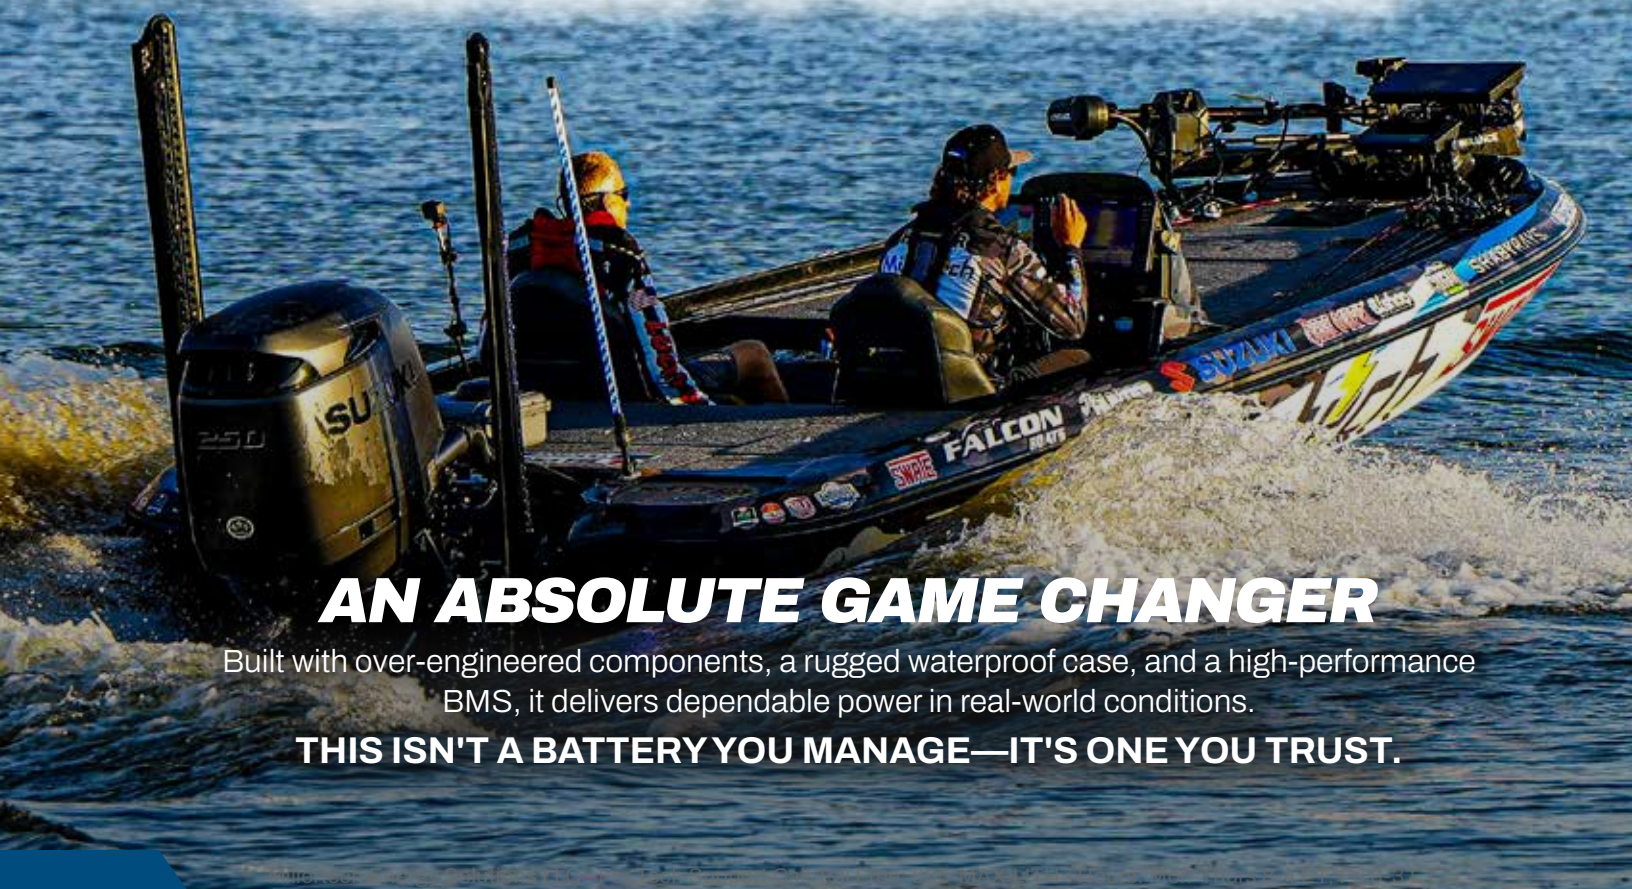

10 YEAR WARRANTY

MARINE DEEP CYCLE

Capacity	105Ah
Voltage	38.4V
Weight	68.2 lbs.
Size	13.5" x 9.6" x 10.5"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	None
Terminals	M8
Max Charge Voltage	43.2V
Low Cut-off Voltage	30V
Max Charge/ Discharge Current	100A
Peak Discharge Current	5s-300A
Operating Temp	-4°F–140°F
Cell Type	Prismatic
Bluetooth	Yes
Warranty	10 years

RAW POWER

AN ABSOLUTE GAME CHANGER

Built with over-engineered components, a rugged waterproof case, and a high-performance BMS, it delivers dependable power in real-world conditions.

THIS ISN'T A BATTERY YOU MANAGE—IT'S ONE YOU TRUST.

48V Batteries

All-day power for the course and beyond

NEW!

48V 20Ah

Item #4820BT
Retail: **$499**

10 YEAR WARRANTY

SPORT SERIES Bluetooth

MARINE DEEP CYCLE

Capacity	20Ah
Voltage	51.20V
Weight	28 lbs.
Size	10.23" x 6.61" x 8.35"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	None
Terminals	M8
Max Charge Voltage	57.6V
Low Cut-off Voltage	40V
Max Charge/ Discharge Current	20A
Peak Discharge Current	50A - 5 sec
Operating Temp	-4°F–140°F
Cell Type	Prismatic
Group Size	24
Bluetooth	Yes
Warranty	10 yr

48V 50Ah

SPORT SERIES Bluetooth

MARINE DEEP CYCLE

Item #4850-BT

Retail: **$1,399**

10 YEAR WARRANTY

Capacity	50Ah
Voltage	51.2V
Weight	48 lbs.
Size	11.02" x 7.07" x 10.91"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	None
Terminals	M8
Max Charge Voltage	57.6V
Low Cut-off Voltage	40V
Max Charge/ Discharge Current	50A
Peak Discharge Current	150A - 5 sec
Operating Temp	-4°F–140°F
Cell Type	Prismatic
Group Size	GC2
Bluetooth	Yes
Warranty	10 yr

NEW!

48V 105Ah

SPORT SERIES Bluetooth

MARINE DEEP CYCLE

Item #48105-BT

Retail: **$2,299**

10 YEAR WARRANTY

Includes power switch and meter to install directly in your dash for the ultimate in convenience!

Capacity	105Ah
Voltage	51.2V
Weight	100 lbs.
Size	18" x 10.75" x 9.875"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	None
Terminals	M8
Max Charge Voltage	57.6V
Low Cut-off Voltage	40V
Max Charge/ Discharge Current	100A
Peak Discharge Current	240A - 5 sec
Operating Temp	-4°F–140°F
Cell Type	Prismatic
Bluetooth	Yes
Warranty	10 yr

10 YEAR WARRANTY

THE MILLERTECH® SPORT SERIES LITHIUM BATTERY 10 YEAR GUARANTEED WARRANTY **IS SIMPLE!**

TERMS:

From the date of your battery purchase through year number 10 of ownership, your battery is covered. If it stops working during this time, we will repair or replace it with a battery of equal or greater value for FREE!

SHIPPING:

We cover all shipping costs associated with shuttling your battery back and forth for repair or replacement. It is our warranty; it is our cost; not yours.

EXCLUSIONS:

There are NONE! You trusted Millertech®, and if it's within the warranty period your Millertech® battery is completely covered for everything!

PROOF OF PURCHASE:

You don't need one. If it's Millertech®, it's covered!

Millertech DUAL PURPOSE batteries are built to handle both starting your engine and powering your electronics, all in one battery. That means you get the cranking power to start your motor, plus the capacity to run graphs and accessories for long days on the water. Instead of managing separate batteries, you get reliable, all-day power from a single, smarter setup.

STRONG. SIMPLE. RELIABLE.

SERIOUS POWER. PROVEN PERFORMANCE.

Millertech Dual Purpose LiFePO4 batteries are the result of focused development by our team of engineers and technicians, who have worked to optimize both high cranking performance and sustained energy delivery in a single platform. These batteries are engineered to deliver the high discharge current required to start large marine engines, while also maintaining the reserve capacity and voltage stability needed to support multiple high-demand electronics over extended periods. Achieving this balance requires careful integration of cell selection, BMS calibration, and thermal and load management, ensuring reliable performance across both starting and deep cycle applications. The result is a true dual purpose solution designed to meet the evolving power demands of modern marine systems.

12V 40Ah

SPORT SERIES Bluetooth

Item #1240-DP

Retail: **$349**

10 YEAR WARRANTY

DUAL PURPOSE

Capacity	40Ah
Voltage	12.8V
Weight	14 lbs.
Size	7.6" x 5.2" x 7.25"
BMS	Yes
Chemistry	LFP
Efficiency	98%
Memory	None
Terminals	M8
Max Charge Voltage	14.6V
Low Cut-off Voltage	10V
Max Charge/Discharge Current	200A 5 sec.
Cold Cranking Amps (CCA)	600 CCA
Operating Temp	-4°F–140°F
Cell Type	Prismatic
Group Size	U1
Bluetooth	Yes
Warranty	10 yr

12V 100Ah

SPORT SERIES Bluetooth

Item #12100DPH-G24

Retail: **$699**

10 YEAR WARRANTY

DUAL PURPOSE

Capacity	100Ah
Voltage	12.8V
Weight	31 lbs.
Size	10.23" x 6.61" x 8.35"

Millertech's SprintR Series Batteries are made with the same care and quality as our high performance line of batteries.

More Lead. Heavier Plates. Longer Life.

SEALED LEAD-ACID BATTERIES

Millertech (AGM) Batteries are designed to be deeply discharged and recharged hundreds of times.

They are designed and built differently than traditional flooded batteries. Millertech AGM Batteries are sealed lead-acid batteries made with Absorbed Glass Mat (AGM) technology. The electrolyte is absorbed into the fiber separator material rather than in free-flowing liquid form. They use more lead, heavier plates and other proprietary materials that enable them to deliver more power and capacity over many life cycles.

1 YEAR WARRANTY

12V20Ah AGM Battery

Item #20AGM
Retail: **$59.00**

CAPACITY: 20Ah
VOLTAGE: 12V
WEIGHT: 13 lbs.
SIZE: 7" x 3" x 6.5"
WARRANTY: 1 year

Cycles:	600-800
Sealed / Non-spillable:	Yes

12V75Ah AGM Battery

Item #75AGM
Retail: **$179**

CAPACITY: 75Ah
VOLTAGE: 12V
WEIGHT: 53 lbs.
SIZE: 10" x 6.5" x 8"
WARRANTY: 1 year

Cycles:	600-800
Sealed / Non-spillable:	Yes

$10.00 Shipping Upcharge

12V35Ah AGM Battery

Item #35AGM
Retail: **$88.00**

CAPACITY: 35Ah
VOLTAGE: 12V
WEIGHT: 22 lbs.
SIZE: 7.5" x 5" x 6.5"
WARRANTY: 1 year

Cycles:	600-800
Sealed / Non-spillable:	Yes

12V100Ah AGM Battery

Item #100AGM
Retail: **$249**

CAPACITY: 100Ah
VOLTAGE: 12V
WEIGHT: 70 lbs.
SIZE: 13" x 6.5" x 8"
WARRANTY: 1 year

Cycles:	600-800
Sealed / Non-spillable:	Yes

$10.00 Shipping Upcharge

12V55Ah AGM Battery

Item #55AGM
Retail: **$138**

CAPACITY: 55Ah
VOLTAGE: 12V
WEIGHT: 38 lbs.
SIZE: 9" x 5.5" x 8"
WARRANTY: 1 year

Cycles:	600-800
Sealed / Non-spillable:	Yes

12V200Ah AGM Battery

Item #200AGM
Retail: **$429**

CAPACITY: 200Ah
VOLTAGE: 12V
WEIGHT: 136 lbs.
SIZE: 20" x 9.5" x 9"
WARRANTY: 1 year

Cycles:	600-800
Sealed / Non-spillable:	Yes

BATTERY ACCESSORIES

Battery Tray Group 24

Item #G24 Retail: **$52.00**
Inside Dimensions: 10.25" x 6.75"

Battery Tray Group 31

Item #G31 Retail: **$62.00**
Inside Dimensions: 13.25" x 6.75"

Battery Tray Group 50

Item #G50 Retail: **$72.00**
Inside Dimensions: 14.39" x 10.57"

- Heavy duty construction
- 1/8" aluminum is more durable, lighter than steel
- Excellent shock absorption - thick foam padding

AC-DC Clamp Meter

Item #210
Retail: **$89.00**

Designed to measure AC/DC current, AC/DC voltage, resistance and capacitance with very high accuracy. With a convenient clamp design you can easily clamp it over any wire and quickly get an accurate amperage reading. This is a must-have for everyone including solar installers, electricians & the average home owner.

Display Count	2000
Auto Power Off	Yes / 15 min.
Power	2X AAA Battery
AC/DC Current	2A/20A/100A
AC/DC Voltage	2V/20V/200V/600V

Resistance & Capacitance Testing

Fuel Gauge

Item #211 Retail: **$15.00**

Voltage Compatible	12V-24V-36V-48V
Battery Types	Lead Acid - Lithium
Voltage Readout	Yes
Percentage Readout	Yes
Mounting Hole	Rectangle

Millertech Custom Meter

Item #211-M Retail: **$12.00**

- Compatible w/12-24V $LiFePO_4$ batteries
- Voltage reading
- Accurate percentage reading for $LiFePO_4$
- Mounting hole = rectangle

Digital Volt Meter

Item #206-B (Blue)
Item #206-G (Green)
Item #206-R (Red)
Retail: **$10.00**

50A GEN Connector

Item #197 Retail: **$5.00**

50A GEN Connector

with 12" 6 AWG Wire Leads and 3/8" Ring Terminals

Item #229 Retail: **$14.00**

Dual USB Charge Socket

Item #204 Retail: **$7.00**

Power Distribution Blocks

Item #124-BLK Retail: **$39.00** per set

This set of high quality distribution blocks are custom machined to work well with most Millertech batteries. At last no more stacking ring terminals to create an ugly cobweb of wires. Get organized today!

Battery Terminals - 4mm

Item #209 Retail: **$10.00** per set

AGM Battery Terminals - 6mm

Item #213 Retail: **$10.00** per set

Lithium Battery Terminals - 8mm

All Marine Chargers come standard with 50A Anderson Quick Connectors!

Dual-Bank Lithium Battery Chargers

MARINE

Dark Speed "On-The-Run" Dual-Bank LiFePO4 Battery Charger

The Dark Speed "On The Run" charger offers an advantage over traditional charging methods by allowing you to recharge your auxiliary lithium battery bank directly from your motor's alternator while diverting extra power directly to your 24V or 36V battery.

12V Cranking and 24V Trolling Charger

Item #DS24 Retail: **$649.00**

Input Voltage	90-130V AC
AC Power Draw	650W
Output 1	14.5V - 15A
Output 2	28.8V - 15A
Start Transfer Voltage	14V
Stop Transfer Voltage	13.3V
Waterproof	IP65
Dimensions	10.75" x 7.75" x 3.5"
Weight	13.8 lbs.
Warranty	3 Years

12V Cranking and 36V Trolling Charger

Item #DS36 Retail: **$649.00**

Input Voltage	90-130V AC
AC Power Draw	857W
Output 1	14.5V - 15A
Output 2	42.6V - 15A
Start Transfer Voltage	14V
Stop Transfer Voltage	13.3V
Waterproof	IP65
Dimensions	10.75" x 7.75" x 3.5"
Weight	13.8 lbs.
Warranty	3 Years

Dark Speed "On The Run" vs. traditional lithium battery charging methods

DARK SPEED	TRADITIONAL
Charging speed and efficiency	
Enables fast and continuous charging of your whole lithium battery system while your motor is running. This eliminates downtime associated with traditional charging methods and keeps your equipment ready for extended use.	Often require longer charging times since no power is being distributed throughout the day.
Power source and convenience	
Utilizes your vehicle's alternator as the power source, providing convenient and fast charging whenever you're on the move. This eliminates the need for daily shore power hookups, generators, or external power sources.	Rely on external power sources or separate charging units often limiting your day on the water to less than 10 hours.
Flexibility and freedom	
It lets you stay out on the water longer without worrying about power depletion. You're no longer tethered to a fixed power source.	Can be restrictive, requiring you to use a generator for daily recharging.

Dual-Bank Lithium Battery Chargers

MARINE

Marine Dual-Bank LiFePO4 Battery Charger

Charge your 12V house/starting battery and your 24V or 36V trolling motor battery at the same time with one charger.

Millertech
LED Scooter Light Kit

IMPROVED FEATURE
TO MAKE YOUR RIDE SAFER

A complete front and rear LED lighting system designed specifically for scooters.
Now with improved design, adjustable brightness and independent switches for safer, more considerate riding-day or night.

Improved Front Light Design
The new hooded design directs the light downward, keeping it on the road and reducing glare for oncoming traffic.

Hang from the Ceiling or Mount Directly to the Ceiling

Offering the same selectable and versatile options as our great-selling UFO High bays, this version is not waterproof sealed, making them a more cost effective solution. This type is widely used in commercial projects like Menard's, Walmart and others.

Another great feature these Linear LEDs offer is an option to add a motion sensor. This motion sensor, seamlessly installs directly into the light, making it simple and quick to install.

Rechargeable Motion Sensor Light

NEW!

With 18650 Millertech Headlamp Battery

Item #566-G
Retail: **$30.00**

A convenient grab and go flashlight built into a motion sensor light. Motion sensor has 60 lumens. Flashlight has 50 lumens.

LITHIUM POWERED
The removable lithium battery recharges over 1,000 times, saving money and keep hundreds of batteries out of landfills.

ATTACH ANYWHERE
This compact LED light attaches to any surface with self-adhesive magnets. Built for indoor or outdoor use.

GRAB AND GO
Lift this motion sensor light off the wall and use it as a flashlight that illuminates with separate LEDs on top.

LED Rechargeable Lanterns

- Accommodates up to a 20W bulb
- Millertech battery-powered 12Ah (8-rechargeable D size batteries)
- 10.2 hour runtime with a 15W bulb
- Can be recharged up to 2,000x
- Molded plastic body makes it lightweight, yet very durable
- Recharge the battery internally or externally
- Built-in fuel gauge
- Low voltage alarm
- Low battery shut-off
- AC or DC powered chargers available

1 YEAR WARRANTY

MADE IN USA

Reversible design can hang with bulb UP or DOWN!

Choice of Pull Chain or Rocker Switch

Protection degree	IP32	IP32	IP32
Weight	3.1 lbs	4.4 lbs	7.9 lbs
Communication method	RS232	RS232	RS232
Altitude	≤9,840 ft	≤9,840 ft	≤9,840 ft
Product dimensions	8.3" x 5.9" x 2.3"	9.4" x 6.8" x 2.9"	11.2" x 8.1" x 3.7"

DC-Powered Cordless Tool Battery Charger

Item #CAT-DEW (DEWALT)
Item #CAT-MIL (MILWAUKEE)
Item #CAT-MAK (MAKITA)
Retail: **$129.00** (Excludes battery)

- Battery-to-charger communication for safety
- Efficiently DC-powered, using up to 20% less energy than an inverter with AC chargers
- 12V to 60V input
- Works with these batteries: 12V, 24V, 36V, and 48V
- Works with solar panels up to 50V

Charges

1 YEAR WARRANTY

Item #CL1820-M (MAKITA)
Retail: **$22.00**

Item #1812-CIG-C (DEW/MILW)
Retail: **$35.00**

Item #1812-CIG-M (MAKITA)
Retail: **$35.00**

- 18.5V input
- 12V - 10A continuous output
- Heavy-duty circuit board with low-voltage shut-off

12V Fan Adapter

Item# 1812-FANC (DEW/MILW)
Item# 1812-FANM (MAKITA)
Retail: **$28.00**

- 18.5V input
- 12V 4A output
- 12 Inch wire lead with 5.5 X 2.1 male
- Works to power most 12V DC fans

Fits **DEWALT** Tool Battery

Fits **MAKITA** Tool Battery

Fits **MILWAUKEE** Tool Battery

USB Tool Adapters with 12V Output

Item #218-DW (DEWALT) Retail: **$20.00**
Item #218-MK (MAKITA) Retail: **$20.00**
Item #218-ML (MILWAUKEE) Retail: **$20.00**

Cordless Tool Battery Night Light/Flashlight USB Power Supply

Item #220-C (DEW/MILW)
Retail: **$29.00**

Item #220-M (MAKITA)
Retail: **$29.00**

- Dual USB output 2.1A x 2
- Three brightness settings
- 350 lumens (high)
- Runtimes with 5Ah battery: High: 30 hrs, Low: 300+ hrs

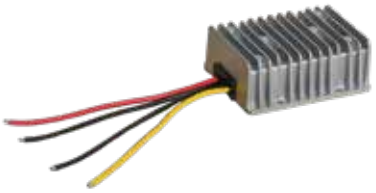

DeWalt/Milwaukee version

Low setting emits a yellowish glow, upward, making it perfect for use as a child's night light!

Makita version

CONVERTERS - DC TO DC

24V to 12VDC 40A Converter

Item #2412-40 Retail: **$44.00**

48V to 24VDC 30A Converter

Item #4824-30 Retail: **$52.00**

48V to 24VDC 60A Converter

Item #4824-60 Retail: **$210**

Cordless Tool Battery Adapter with USB Port

(Convert Makita Tools to Dew/Milw Battery)

Item #217-MAK

Retail: **$20.00**

This adapter is made so that a Makita tool can be operated with a DeWalt or Milwaukee battery!

Cordless Tool Battery Adapter with USB Port

(Convert DeWalt Tools to Makita Battery)

Item #217-C

Retail: **$20.00**

This adapter is made so that a DeWalt tool can be operated with a Makita battery!

Basic 12V to 24V Voltage Meter Battery Tester with Switch

Item #191 Retail: **$19.00**

Mountable DC Power-Box 12V Cig. Plug, Dual USB Plugs, Battery Voltage Tester

Item #192 Retail: **$39.00**

ACCESSORIES

A-1 CIRCUITS

These circuit boards are custom-built for specific applications. If you are not sure if they are made for your application, please contact our tech team and we will be glad to offer direction!

18V 5A Low Voltage Blinker Board

Item #18V5A-V1 Retail: **$7.00**

Specifically designed to solder directly to DeWalt or Milwaukee adapter contacts.

18V to 5A Low Voltage Blinker Board with Switch

Item #18V5A-V2 Retail: **$7.00**

18V to 24V 1A Soft Start Diffuser Board

30 watt Output

Item #18-24V1A Retail: **$8.00**

This kit creates a simple solution for powering a 24V diffuser from a 12V battery or a 8D battery pack (Millertech Item #402R)

12V to 24V 1A Soft Start Diffuser Board Kit

Item #12-24V1A Retail: $24.00

Clamp Set w/ Female Cigarette Plug

Item #215 Retail: **$7.00**

ACCESSORIES

Clamp Set with Female Cigarette Plug and 15A Fuse 14AWG Wire

Item #215-HD Retail: **$9.00**

AC-DC Clamp Meter

Item #210
Retail: **$89.00**

Designed to measure AC/DC current, AC/DC voltage, resistance and capacitance with very high accuracy. With a convenient clamp design you can easily clamp it over any wire and quickly get an accurate amperage reading. This is a must-have for everyone including solar installers, electricians & the average home owner.

Display Count	2000
Auto Power Off	Yes / 15 min.
Power	2X AAA Battery
AC/DC Current	2A/20A/100A
AC/DC Voltage	2V/20V/200V/600V

Resistance & Capacitance Testing

Fuel Gauge

Item #211 Retail: **$15.00**

Voltage Compatible	12V-24V-36V-48V
Battery Types	Lead Acid - Lithium
Voltage Readout	Yes
Percentage Readout	Yes
Mounting Hole	Rectangle

Millertech Custom Meter

Item #211-M Retail: **$12.00**

- Compatible with 12-24-48V $LiFePO_4$ batteries
- Voltage reading
- Accurate percentage reading for $LiFePO_4$
- Mounting hole = rectangle

Digital Volt Meter

Item #206-B (Blue) Retail: **$10.00**
Item #206-G (Green) Retail: **$10.00**
Item #206-R (Red) Retail: **$10.00**

Power Distribution Blocks

Item #124-BLK Retail: **$39.00** per set

This set of high quality distribution blocks are custom machined to work well with most Millertech Batteries. At last no more stacking ring terminals to create an ugly cobweb of wires. Get organized today!

Battery Terminals - 4mm

Item #209 Retail: **$10.00** per set

AGM Battery Terminals - 6mm

Item #213 Retail: **$10.00** per set

Lithium Battery Terminals - 8mm

Item #212 Retail: **$10.00** per set

SAE to SAE Connector Kit with Caps

Item #184
Retail: **$4.00**

- 1 ft. - 16 AWG wire

50A GEN Connector

Item #197 Retail: **$5.00**

50A GEN Connector

with 12" 6 AWG Wire Leads and 3/8" Ring Terminals

Item #229 Retail: **$14.00**

175A GEN Connector Kit

Item #231 Retail: **$12.00**

350A GEN Connector Kit

Item #232 Retail: **$19.00**

Edison Inverters

ALL-IN-ONE
Inverter - Solar Charge Controller - AC Battery Charger

We recommend using these units in any light-duty non-commercial application. We have found them to be very economically priced and also a very reliable choice for your small to mid-sized solar system.

Edison Inverters

24V 3000W

Item #243E Retail: **$599**

Model	HF2430U80-H
AC Mode	
Rated input voltage	110/120V AC
Input voltage range	(90V AC-140V AC)
Frequency	50Hz/60Hz (auto-sensing)
Frequency range	47 0.3Hz - 55 0.3Hz (50Hz); 57 0.3Hz - 65 0.3Hz (60Hz)
Overload / short-circuit protection	Breaker
Efficiency	>95%
Conversion time (Bypass and inverting)	10ms (Typical value)
AC reverse flowing protection	Yes
Maximum bypass overload current	30A
Inverting mode	
Output voltage waveform	Pure sine wave
Rated output power (VA)	3000
Rated output power (W)	3000
Power factor	1
Rated output voltage (V AC)	120V
Output voltage error	5%
Output frequency range (Hz)	50Hz 0.3Hz / 60Hz 0.3Hz
Efficiency	>90%
Overload protection	(102%<load<110%) 10% reporting error and turn off the output after 5 minutes; (110%<load<125%) 10% reporting error and turn off the output after 10 seconds; Load>125% 10% reporting error and turn off the output after 5 seconds
Peak power	6000VA
Loaded motor capacity	2HP
Output short-circuit protection	Breaker
Specification of bypass breaker	63A
Rated battery input voltage	24V (minimum start voltage 22V)
Battery voltage range	(undervoltage alarm / turnoff voltage / overvoltage alarm / overvoltage restoration... settable LCD screen)
Power saving mode	Load < 50W
AC charge	
Battery type	Lead acid or lithium battery
Maximum charge current	60A
Charge current error	± 5A DC
Charge voltage range	20-33V DC
Short-circuit protection	Breaker and blown fuse
Breaker specification	30A
Overcharge protection	Turn off charge after 1 min. alarm
Solar charge	
Maximum PV open-circuit voltage	500V DC
PV operation voltage range	120-500V DC
MPPT voltage range	120-450V DC
Battery voltage range	20-33V DC
Maximum output power	4000W
Charge current range of solar energy (settable)	60A
Charge short-circuit protection	Blown fuse
Wiring protection	Inverse wiring protection
Authentication specification	
Specification authentication	CE(IEC 62109-1)/CETL(UL 1741/CSA C22.2 No.107.1)
EMC authentication grade	EN61000
Operation temperature range	-15°C to 55°C
Storage temperature range	-25°C - 60°C
Humidity range	5% to 95% (three-proof paint protection)
Noise	≤60dB
Thermal dissipation	Forced cooling with adjustable air speed
Communication interface	USB/RS485 (WiFi/GPRS)dry node control
Dimension (L x W x D)	426mm x 322mm x 126mm
Weight (kg)	6.8

48V 5000W

Item #485E Retail: **$980**

Model	HF4850U80-H
AC Mode	
Rated input voltage	110/120V AC
Input voltage range	(90V AC-140V AC)
Frequency	50Hz/60Hz (auto-sensing)
Frequency range	47 0.3Hz - 55 0.3Hz (50Hz); 57 0.3Hz - 65 0.3Hz (60Hz)
Overload / short-circuit protection	Breaker

CORDLESS

No more wrapping up cords, or trying to find a place to plug it in

The Casa Cordless Advantage

#1 The Battery!

A. REMOVABLE - remove it to use in another Casa appliance or to charge it.

B. RELIABLE - heavy duty, built to last! Light color shows level of charge.

C. DESIGNED - cordless, not clumsy

D. Expandable - Use it for all the Casa products - MORE items coming soon!

#2 The Design

Designed to feel balanced. No clumsy battery hanging on the back.

#3 The Materials

- Impact-resistant
- Durable
- Fade-resistant

#4 The Warranty

No-questions-asked, old-fashioned American warranty

Scent that fills the room, Never overwhelms it.

A smart mist-and-rest cycle releases fragrance in a short bursts, then pauses for one minute, so the scent stays steady and even all day long.

Pure oil. Pure air. Nothing else. Instead of diluting oil in water, cold air breaks pure essential oil into an ultra-fine mist that spreads evenly through the room. There's no water, no heat and no residue, no chemicals, just true, lasting fragrance.

- **Whisper Quiet**
- **Smart Touch Controls**
- **Up to 1,000 sq. ft.**
- **Adjustable Intensity**

Head Covering Iron

NEW!

Item #C202-C (DEW/MILW)
Item #C202-M (MAKITA)
Retail: **$149.00.00** (Excludes battery)

Powered by Your Tool Battery Choice!

1 YEAR WARRANTY

- Aluminum and stainless steel construction
- Powered with 18-20V DC DeWalt or Milwaukee tool battery
- Steady, gentle heat
- Ergonomic handle stays cool to the touch
- Heat indicator light

Keeping a head covering crisp and neat is a sign of care, but a standard household iron is too large and clumsy for such delicate work. This Head Covering Iron is thoughtfully designed for the specific task of pressing a woman’s cap, ensuring every pleat is perfect and every string is smooth.

Rechargeable Closet/Cabinet Lights

Item #B908 (8") Retail: **$25.00**
Item #B9016 (16") Retail: **$35.00**

Our two sizes of rechargeable closet and cabinet lights have an exceptionally long battery life.

The motion sensors turn the lights on only when they are needed, or they can be set to stay on indefinitely.
Lighting colors can be adjusted to warm, cold, or natural white.
These lights are great for a wide variety of applications like in closets, in pantries, under cabinets, in drawers, in bathrooms, over staircases and virtually anywhere you may need some extra light!

Rechargeable Hand Warmer

Item #B940
Retail: **$39.00**

Long lasting, built-in battery rechargeable via USB. There are three heat settings and a USB port for charging other devices.

- Perfect for hunting and fishing
- Construction work
- Buggy rides

Perfect for carrying in your pocket. Also features a flashlight, and vibrating function which is ideal for sore muscles. The heat will help ease stomach cramps. The hottest setting is 104° F. Lowest setting is 100° F.
